

MLT1407 Large Animal Rectal Probe

Transducer Series

Description

The MLT1407 Large Animal Rectal Probe is suitable for use with rabbits and larger animals. The MLT1407 is supplied with a 2-pin T-type thermocouple plug suitable for connection to the ML312 T-type Pod, ML290-V Thermometer for T-type Thermocouples. The probe is flexible, vinyl covered and soft tipped so as not to cause discomfort.

Application

The MLT1407 Large Animal Rectal Probe is suitable for temperature measurements of rabbits and large animals.

Caution

Read "Statement of Intended Use" on our website or in "Getting Started with PowerLab" before use..

- Intended for animal use only.
- Do not autoclave.
- To clean, wipe probe with alcohol or use a liquid sterilization medium such as Cidex (applied with a sterile wipe).

Specifications

Max Temp:	90 °C
Sensor element:	Type T Thermocouple
Accuracy:	±0.1 °C
Time Constant:	5 seconds
Probe type:	Isolated
Shaft length:	6.4 mm (0.25")
Shaft diameter:	2.3 mm (0.094")
Ball tip diameter:	4.0 mm (0.156")
Cable length:	1.5 m (5')
Connector:	T-type

All specifications were tested at the time of printing and are subject to change.
